

STRIKE CALL, January 31st and February 1st 2019

“Strike call for 48 hours”

There is still no movement to be seen among employers united in the FME!

Ask all your colleagues to join the strike. Only fighting side by side will bring about a collective labour agreement that you deserve. Doing nothing is not an option.

Still no Collective agreement

We call on all workers to strike on Thursday, 31 January and Friday, 1 February 2019 for a fair collective agreement 'cao Metaalektro'
